ABOUT CHAPTER 52

The International Right of Way (ROW) Association is a professional member organization of global infrastructure real estate practitioners.

Since its inception as a not-for-profit association in 1934, IRWA has served professionals who acquire, manage and transfer the land rights needed for building and maintaining energy and transportation infrastructure. Chapter 52 is celebrating its 50th anniversary, since chartering in 1969.

Our members play a vital role in the community, region, and nation with improvements to highways, flood control, utility enhancement, railroads, and other public development.

Technical skills in appraisal, relocation, engineering, law, negotiation, public relations, property management, and public service administration are needed for proficiency in this complex field. The goals of Chapter 52 provide many opportunities for the training and education of its members.
